

DECEMBER

WHAT TO DO NOW IN THE VEGETABLE GARDEN

PLANT OUT/ TRANSPLANT NOW:

Bare Rooted Fruit Trees and Fruit Bushes
Rhubarb

OTHER JOBS:

Stake your Brussels sprouts so that they won't get blown over.
Figs – Protect from frost.
Red Currants/Black Currants – prune now and use the prunings as cuttings to make new plants.
Raspberries – cut down autumn flowering raspberries to the ground.
Apples and Pears – prune now.
Digging and weeding.
Order your seeds for next year.

HARVEST:

Brussels Sprouts, Cabbages, Kale, Leeks, Parsnips, Welsh Onions.
