

FEBRUARY

WHAT TO DO NOW IN THE VEGETABLE GARDEN

SOW NOW:

Indoors: Summer cabbages, lettuce, onions, sweet peas

In a cold frame: broad beans, early peas, spinach

OTHER JOBS:

Put seed potatoes on a windowsill to chit (if you didn't start them last month)

Mulch Rhubarb with compost and cover with a pot or bucket to force for more delicate stalks.

Prune apples and pears.

Pull any perennial weeds out of your veg. beds and add compost.

HARVEST:

Brussels Sprouts, Winter cabbage, Kale, Leeks, Parsnips.

Rosemary, Bay, Thyme and Winter Savory.
